Task Title: Responsive Company Member Team page.

Task Description: The task involves developing a responsive web page for the Company Member Team, adhering to the design reference provided in the file. The objective is to utilize HTML and CSS to bring the design to life while ensuring responsiveness across various devices. This project aims to showcase coding skills, creativity, and attention to detail in implementing the design reference effectively.

Steps Taken:

1. **HTML Structure:** Created the HTML structure based on the design reference, ensuring semantic markup and accessibility standards.
2. **CSS Styling:** Utilized CSS to style the HTML elements according to the design specifications, including fonts, colors, spacing, and alignment.
3. **Responsive Design:** Implemented media queries and flexible layout techniques to ensure responsiveness across various devices and screen sizes.

Challenges Faced:

1. **Responsive Layout:** Adapting the design to ensure responsiveness across different devices posed a challenge, especially in handling complex layouts and interactions.

Solutions Implemented:

1. **Media Queries:** Implemented media queries to adjust layout and styling based on screen size, ensuring optimal display across devices.

Learnings:

1. **Responsive Design Principles:** Gained a deeper understanding of responsive design principles and techniques for creating adaptable layouts.
2. **CSS Techniques:** Learned advanced CSS techniques such as Flexbox to streamline page structure and enhance responsiveness.

Project Update:

The responsive Company Member Team page has been successfully developed, adhering to the design reference provided. The page is fully functional and responsive, showcasing the Company Member Team information effectively across various devices and screen sizes.
